

[lecture demos](#) | [vpython scripts](#) | [demonline home](#) | [uct physics home](#)

Welcome

Welcome to demonline, the UCT Physics Department website for educational demonstrations. The website catalogues both [lecture demonstrations](#) and [VPython scripts](#). The lecture demos section contains descriptions of the setup and execution of various physics experiments, along with screenshots and a reference for finding the equipment in the UCT Physics labs. The VPython scripts section contains scripts that demonstrate various physics concepts.
