Disposal of empty pesticide containers

Always wash and rinse empty pesticide containers and back pack sprayers at least 3 times.

After rinsing the container:

1. Puncture the container.
2. Throw the container into a deep hole.
3. Always cover the hole after burying the container.

This project was made possible by the generous sponsorship of the following donors:

- Tony and Lisette Lewis Foundation South Africa
- DANCED (Danish Co-operative For Environment and Development)
- WHO (World Health Organisation)
- National Centre for Occupational Health
